TAGAEV RASHID

Incheon, South Korea · rashidtagaev01@gmail.com

SUMMARY

A motivated AI/ML Engineer with practical experience through academic and personal projects, I focus on applying machine learning concepts to real-world use cases with a strong foundation in fundamentals.

RELEVANT EXPERIENCE

DUBBE | AI Video Dubbing · Capstone Project & Startup — **Inha University × HumbleBeeAI**
AI / Technical Lead — **Sept 2026 - present**

- Built an end-to-end AI dubbing pipeline: speech recognition, translation, speech synthesis
- 24 languages; a per-sentence quality report flags what a person should review
- Speaker diarization (NVIDIA Nemotron + TitaNet): 6 of 6 speakers right on a real news clip
- FastAPI web app with a GPU job queue, review editor, consent-based voice cloning, live dubbing

Maple | Startup · mapleapp.tech — **Incheon, South Korea**
Co-Founder — **Sept 2026 - present**

- Co-founded a sponsorship marketplace connecting event organizers with sponsors in Korea
- 2nd Place at Habshida Hackathon 2026, South Korea (Sep 24, 2026)

Digital Image Processing | Course Project — **Inha University**
Team Leader — **Sept 2025 - Dec 2025**

- Built a real-time facial analysis pipeline using OpenCV and DeepFace
- Studied face detection, recognition, and emotion analysis workflows
- Studied DeepFace-based feature extraction and emotion classification
- Applied OpenCV image processing on live video

Computer Networks | Course Project — **Incheon, South Korea**
Team Leader — **Mar 2025 - Jun 2025**

- Designed the system architecture for a multi-node monitoring network
- Implemented and tested UART, Bluetooth, and HTTP communication protocols
- Built a Flask-based service with remote access via ngrok
- Coordinated team development, testing, and technical documentation

Database Design | Course Project — **Inha University**
Team Leader — **Sept 2024 - Dec 2024**

- Designed a MySQL relational database for a library mobile application
- Barcode-based book identification
- Used SQL to define data types, relationships, and perform CRUD operations
- Built the backend API using Python and Flask and integrated it with a React Native (Expo)

EDUCATION

Integrated System Engineering | Inha University **Sept 2023 - present (Aug 2027)**

- GPA: 4.41/4.5
- Studied AI and Machine Learning fundamentals, data analysis, and model evaluation
- Completed academic projects applying ML techniques to practical problem scenarios
- Built a solid understanding of Data Structures and Algorithms, focusing on efficiency and logical design

Muhammad al-Khwarizmi IT-School **Sept 2020 - May 2023**

- Specialized in Web Development and Computer Science at a presidential, technology-oriented high school
- Studied programming fundamentals, algorithms, and computer science concepts
- Gained early exposure to web technologies and software development principles

---

LICENSES & CERTIFICATIONS

Artificial Intelligence Fundamentals | IBM **Oct 2025**

- Studied core concepts of Artificial Intelligence and intelligent systems
- Learned how AI can support policy formulation and industry improvement

Python for Data Science, AI & Development | IBM **Oct 2025**

- Developed Python skills for data analysis and AI-related tasks
- Performed data collection, cleaning, and analysis
- Applied AI fundamentals to propose data-driven solutions

Machine Learning for All | University of London (Coursera) **Sep 2025**

- Gained foundational understanding of machine learning concepts
- Explored real-world applications of ML across industries

SKILLS

- Machine Learning
- Deep Learning (TensorFlow, PyTorch)
- V2X System Design
- Creative Problem-Solving
- Python (NumPy, Pandas, Matplotlib)
- C / C++ (Basics)
- Database Design & Architecture (SQL)
- Digital Image Processing

LANGUAGES

- English (IELTS 6.5)
- Korean (Topik 2)
- Russian (Limited working proficiency)
- Kazakh (Native)
- Uzbek (Native)

AWARDS/ACTIVITIES

- 2nd Place, Habshida Hackathon 2026, South Korea, with Maple
- Global Scholarship for Academic Excellence, Inha University (four consecutive years)
- Inha Program Scholarship - First Place, Project-Based Tutee and Tutor Program
- Honorary Student, Inha University (Fall 2023, Spring 2024, Spring 2025, Fall 2025, Spring 2026)
